HRS Role Assignments

Notes:

Jurisdiction **HRS** Needs to be added to Ex Ui List.

As HRS does not exist in the Master Reference Data (MRD) EX Ui will have to create a special case to reference HRS.

Note: for potential future reference

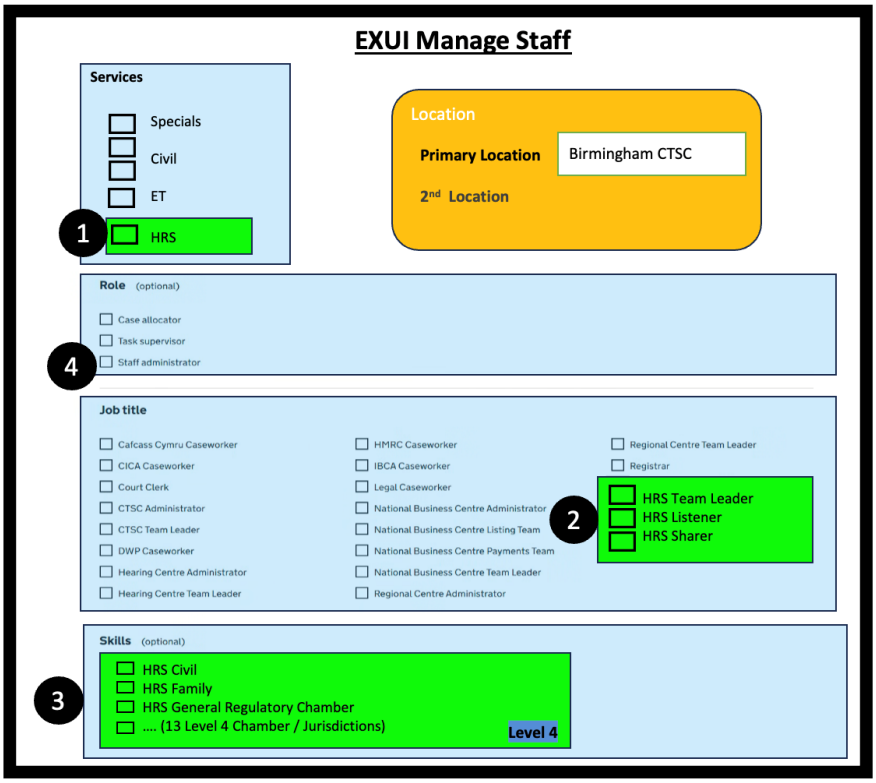

We suspect the service code HRS will need to be added to the CCD Jurisdiction registered in the Location RD system: which at some point would mean having HRS somewhere in the org structure. but for now it has been agreed to use Birmingham CTSC ePIMS 815833 as a hard coded location in the ExUI front end.

5.0 Staff Role Configuration

5.1 Standard Staff Roles

The following standard roles are available for staff. This will be implemented in 2 phases - first phase will be to move the existing IDAM role access to RAS

Role Name	Role Label	Description	Skills	Configuration Required	Substantive Role	Implementation
hrs-team-leader	HRS Team Leader	Team Leader has access to all hearings for all services		Yes	Y	Phase 1
hrs-listener	HRS Listener	allows a user to listen to a hearing recording for the skills selected		Yes	Y	Phase 2
hrs-sharer	HRS Sharer	allows a user to share a hearing recording for the skills selected		Yes	Y	Phase 2

5.2 HRS Service Staff and Admin Roles

The following table describes the staff roles that are required for HRS over and above the standard staff roles.
